

TRAINING ON QUALITY CONTROL SYSTEMS

- Minds Over Metrics: Time to Rock Quality Control!

ABOUT US

Welcome to Pertecnica, your gateway to skill elevation! We specialize in providing targeted training for employees, equipping them with the tools to excel in their roles. Our expert-led programs ensure a seamless blend of theory and practical application, fostering continuous growth. At Pertecnica, we don't just train; we empower professionals for success in today's fast-paced work landscape.

SPECIALIZED TRAINING PROGRAMS

- for Quality Control System

Pertecnica's training initiatives cover a diverse array of pivotal topics, including quality assurance principles, inspection techniques, process optimization, data analysis, and advancements in quality management systems. Emphasizing precision, efficiency, and adherence to international quality standards, Pertecnica Engineering ensures that participants acquire a deep understanding of quality control, empowering them to implement, manage, and innovate within quality control systems across various industrial sectors in India with precision and efficacy.

Employee Trainings on Quality Control Systems

ISO 9001 Quality Management System (QMS) Training:

- Training covers the principles of ISO 9001, quality planning, process management, and auditing techniques.

Six Sigma Training:

- Training programs cover Six Sigma principles, DMAIC (Define, Measure, Analyze, Improve, Control) methodology, and statistical tools.

Employee Trainings on Conveyors

Lean Manufacturing and Lean Six Sigma Training:

- Training programs may combine Lean and Six Sigma methodologies to provide a comprehensive approach to quality and process improvement.

Total Quality Management (TQM) Training:

- Training covers TQM principles, continuous improvement, customer focus, and leadership.

AS9100 Aerospace QMS Training:

- Training programs cover AS9100 requirements, aerospace quality practices, and auditing techniques.

ISO/TS 16949 Automotive Quality Management System Training:

- ISO/TS 16949 is an automotive industry-specific standard for quality management. Training focuses on the standard's requirements, automotive quality practices, and supplier development.

ISO 14001 Environmental Management System Training:

- ISO 14001 focuses on environmental management and sustainability. Training covers ISO 14001 requirements, environmental impact assessment, and sustainability practices.

ISO 45001 Occupational Health and Safety Management System Training:

- ISO 45001 addresses occupational health and safety management. Training programs cover ISO 45001 requirements, workplace safety practices, and risk assessment.

ISO 13485 Medical Devices Quality Management System Training:

- ISO 13485 is specific to the quality management of medical devices. Training covers ISO 13485 requirements, medical device regulations, and quality assurance for healthcare products.

Regulatory Compliance and Good Manufacturing Practices (GMP) Training:

- Training programs on regulatory compliance and GMP principles are essential for professionals in pharmaceuticals, food manufacturing, and other regulated industries.

Statistical Process Control (SPC) Training:

- SPC training focuses on statistical techniques for monitoring and controlling processes. Participants learn how to use control charts, process capability analysis, and other SPC tools.

Risk Management and FMEA Training:

- Training in risk management principles and Failure Mode and Effects Analysis (FMEA) techniques, important for identifying and mitigating potential issues.

Why Choose Pertecnica Engineering?

- **Expertise & Relevant Experience:** We have in-depth expertise in the specific subject matter and relevant industry experience. This ensures that the training is not only theoretically sound but also practically applicable to real-world scenarios in the company's specific field.
- **Customization and Relevance of Content:** Our tailored programs that align with the company's objectives, culture, and the specific skill gaps of the employees are highly valued.
- **Measurable Outcomes and ROI:** Our training will lead to tangible improvements in employee performance and productivity, thereby offering a strong return on investment (ROI).
- **Flexibility & Innovative Delivery Methods:** Flexibility in terms of scheduling, format (in-person, online, hybrid), and adaptability to different learning styles. We offer innovative and engaging training methods that keep employees motivated and facilitate effective learning.
