# SPECIALIZED TRAINING PROGRAMS

## - for Asset management

Pertechnica Engineering stands as a pinnacle in India’s software training landscape, renowned for its bespoke employee training programs. Among its distinguished offerings, Pertechnica’s specialized Asset Management Software training shines as a beacon of efficiency and optimization. These meticulously curated programs delve deep into the realm of asset management solutions, covering principles, implementation strategies, and utilization techniques.

### Employee Trainings for Asset management

Basic Asset Management Software Training	Advanced Features and Customization	Asset Lifecycle Management
<p>For beginners, these courses cover the fundamentals of asset management software, including how to track and manage assets, understanding asset life cycles, and basic reporting.</p>	<p>Aimed at users who are already familiar with basic functions, these courses delve into advanced features, customization options, and integration capabilities of the software.</p>	<p>Focusing on managing assets throughout their entire lifecycle, from acquisition to disposal, including maintenance management, depreciation tracking, and replacement planning.</p>

**Inventory Management and Tracking:**

These courses specialize in inventory tracking features of asset management software, teaching efficient ways to manage stock levels, order supplies, and track inventory usage.

**Software-Specific Training:**

Many courses are tailored to specific asset management software platforms like IBM Maximo, SAP Asset Management, Infor EAM, or Oracle Asset Management. These provide in-depth training on using all features of the specific software.

**Reporting and Analytics:**

Training in generating and interpreting various reports and analytics features available in asset management software, enabling data-driven decision-making.

**Integration with Other Systems:**

Courses focusing on how to integrate asset management software with other systems like ERP, accounting software, or procurement systems for streamlined operations.

**Compliance and Risk Management:**

These courses cover how to use asset management software to ensure compliance with regulations and standards, and how to manage risks associated with asset management.

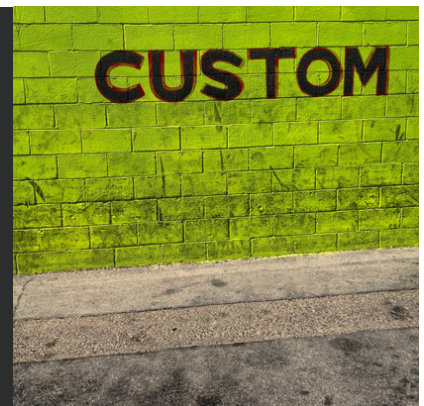

**Mobile Asset Management:**

With the growing trend of mobile solutions, these courses focus on using mobile applications for asset tracking, updates, and management on-the-go.

**Custom Development and APIs:**

For IT professionals, courses that delve into developing custom solutions or using APIs to extend the capabilities of the asset management software.

**Asset Management Software for Specific Industries:**

Some courses are tailored to the needs of specific industries like healthcare, manufacturing, or government, focusing on industry-specific challenges and best practices

## Why Choose Pertecnica Engineering?

- **Expertise & Relevant Experience:** We have in-depth expertise in the specific subject matter and relevant industry experience. This ensures that the training is not only theoretically sound but also practically applicable to real-world scenarios in the company's specific field.
- **Customization and Relevance of Content:** Our tailored programs that align with the company's objectives, culture, and the specific skill gaps of the employees are highly valued.
- **Measurable Outcomes and ROI:** Our training will lead to tangible improvements in employee performance and productivity, thereby offering a strong return on investment (ROI).
- **Flexibility & Innovative Delivery Methods:** Flexibility in terms of scheduling, format (in-person, online, hybrid), and adaptability to different learning styles. We offer innovative and engaging training methods that keep employees motivated and facilitate effective learning.
